About this item

- **IPX5 SEALED ALUMINUM REEL SPOOL:** Successfully combat corrosion with an all-metal reel body and spool design that also features Line Capacity Rings.
- **PRECISION CNC GEAR TECHNOLOGY:** Durable, precise and smooth. Recovers at the rate of 33" | 84cm with every turn of the crank. Gear ratio of 6.2:1. Mono Capacity yd/lb: 255/6 175/8 140/10. Braid Capacity 240/10 220/15 160/20.
- **6 TOTAL BEARINGS:** The Spinfisher VI features 5 stainless steel ball bearings plus 1 instant anti-reverse bearing to provide smooth operation for any saltwater fishing experience.
- **HT-100 FRONT DRAG DRAG SYSTEM:** Built with carbon fiber washers for a max drag of 15lb | 6.8kg, this system will handle big fish without wearing you down.
- **SUPERLINE SPOOL:** Easily prepare for battle with a system that makes it simple to attach slick, braided line. Sizes 2500-5500 have automatic bail trip; Sizes 6500-10500 have manual bail trip. Right/Left handle position.

Product Description

The PENN Spinfisher VI features IPX5 sealing so whether it gets hit with water, or you let it ride in the spray all the way home, you don't have to worry about saltwater getting into the gearbox or drag system. Our HT-100 drag washers are housed in a fully sealed spool to give the stopping power needed for big saltwater fish. A Full Metal Body and sideplate keep the CNC Gear System in precise alignment under heavy loads. Available in standard, Live Liner, Long Cast and bail-less models. Saltwater breeds a different kind of angler. It toughens you. It cures you like bacon. It leaves you thirsty for the next fight. Hard core saltwater anglers need equipment that is as tough as they are and as reliable as the rising tide. At PENN, we've been testing the limits of saltwater fishing since 1932, which is why our reputation for durability runs so deep. PENN. LET THE BATTLE BEGIN.
