QTY	6Pcs/bag
Type	Artificial Bait
Application	Outdoor Activities Fishing

About this item

- **【HIGH-QUALITY MATERIAL】** Made of premium quality soft plastic material, these paddle tail swimbaits are resilient and durable, and not easy to deform. Fishing soft plastic lures is not easy to break and can be reused.
- **【Ultra lifelike paddle tail design】** These soft plastic fish baits have unique and flat high action paddle paddles, providing a free fish-attracting swinging motion for the bait. With a gentle pull on the fishing rod or retrieval of the bait, bass bait will trigger the fish's bite. It helps to emit crazier beats and vibrations, thereby strengthening the seductive action and increasing attraction.
- **【Unique hook slots design】** The hook slot designed on top and belly can help hide the hook-point until the fish bites the soft lures. And it provides better hook penetration. You can rig it with a classic jig-head or an offset hook easier, improving performance in weed and other obstacle environments
- **【Visual and olfactory dual temptations】** Added shrimp oil and glitter flakes, these bait lures will easily attract fish in terms of smell and vision. The reflective sequins throughout the body can reflect light from multiple directions, causing more impact. The addition of shrimp oil makes the bait more realistic, making it easier for target fish to find.
- This swim bait can be paired with different types of hooks. They can be combined with weightless Texas drilling rigs, split type drilling rigs, Carolina drilling rigs, Texas drilling rigs and Florida drilling rigs, lead hook fishing groups, or drop shot drilling rigs. Whether you are throwing on the shore or fishing on the boat, all you need to do is adjust your retrieval speed and aim at the correct position. Our bait ensures reliable performance and increases the chance of success.

Product Description

Features:
